AIRBAG

**COMPATIBLE SIDE STEPS
AND SIDE STEPS WITH RAILS**

Ironman 4x4 is happy to announce our new range of Airbag compatible side steps and side steps with rails. Vehicles with side and curtain airbags have legal requirements for side steps and rails to be airbag compatible.

Ironman 4x4 has gone through extensive airbag compatibility designing and testing to meet the requirements of airbag compatibility. Our Airbag compatible side steps and rails will complement our already extensive range of side steps and rails and feature:

- Steel construction
- Optional side step or side step and rail configurations
- Compatibility with most brand's bullbars
- Non-slip steel checkerplate tread

Improve the sill protection of your vehicle, gain the convenience of steps along the side of your vehicle and protection that scrub rails provide. A must have accessory for any serious 4x4er.

Airbag compatible side steps and rails are currently available for:

- *Toyota Hilux*
- *Toyota Prado 150 Series*
- *Ford Ranger/Mazda BT50*
- *Isuzu D-Max*
- *Holden Colorado*
- *Nissan Navara D40*

Other models currently in development and available soon.
