**2005+**

## **Commercial, Commercial Deluxe and Protector Bull Bar**

It's time to give your Grand Vitara a face lift with the new range of Ironman 4x4 bull bars. These new bull bars are designed to give maximum frontal protection, improve the approach angle and provide a whole new look for the Grand Vitara!

Designed and 3D scanned in the Ironman 4x4 head office in Melbourne to ensure the best possible fit and to ensure the design ticked all the required features of off-road suitability, winch compatibility, airbag and ADR approvals.

These bull bars add a whole new level of toughness to the otherwise soft and round profile of the Grand Vitara. The added approach angles, under bar plates and frontal protection ensure the Suzuki will be a solid off-road option whilst providing increased occupant safety from animal strikes.
