DEFENDER

2007+

Commercial (Tube Style) Bull Bar

The Defender comes in many forms and Ironman 4x4 is ready to match. Ironman 4x4 have a tube style bull bar for the Defender range, designed to allow for easy fitment and a platform for mounting winches and lights.

The tube styling of the bull bar matches the rugged look of the Defender, improving the approach angle and adding some additional frontal protection without taking away from the Defender's classic styling.

The Defender bull bar provides a platform to allow fitment of a winch and lights to ensure you can get your Defender to where it belongs... the tracks!
